MONUMENTS

Built between 70-80 CE, this ancient amphitheater hosted gladiatorial contests and public spectacles. It has survived for over 2,000 years, showing the brilliance of Roman engineering.

Colosseum

The Forum is home to ancient ruins including the Temple of Saturn and the House of the Vestal Virgins. Rome's life was centered here for a thousand years, from the 7th century BCE to the 7th century CE.

Roman Forum

Designed by Nicola Salvi and completed in 1762, this is one of the most famous in the world. It is tradition to toss a coin into the fountain for wishes and good fortune.

Furthermore, as with all fountains in Rome, the Trevi Fountain is powered by ancient aqueducts.

Trevi Fountain

Originally built in 27 BC and later rebuilt around 120 CE, the Pantheon is famous for its perfect dome and central oculus that lights the interior. It features a 43.44-meter self-supporting dome and 22 floor holes designed to collect rainwater.
