

Boston

826 Boston is a nonprofit writing, tutoring, and publishing organization. They offer students after school tutoring programs and host writing workshop events. I chose to update the branding of this organization since I am a volunteer at it. Throughout this past semester I have spent each Wednesday afternoon tutoring and getting to experience the love and warmth this nonprofit exudes. I wanted to redesign the brand's logo, colors, and typography to match that same playful warmth.

These colors are based on the nonprofit’s original branding. I kept the orange color the same for consistency and recognition, but I made the blue and green colors brighter. This was to make to logo and branding more vibrant and welcoming, representing the energy that this organization exudes.

This font is a little
blotty and funky
but legible. Its ink-

casual but sleek,
making it good
for a nurturing
but educational
organization.
